

BRILL BIRD

2023/2024 FALL-WINTER

NEW!

BOUNCY CLEAR BUILDER GEL

By popular demand, we have brought you our Bouncy builder gel in clear version. It has the same features as the cover version, it is excellent for building full nails. It also has a perfect consistency, soft but does not flow from its place. The adhesion is impeccable, durable, does not break. It can be applied to several nails at once for a continuous workflow.

Curing time:

3 min in UV lamp

2 min in LED lamp

1 min in Combined/UVLED lamp

5ml
15ml
50ml

COLORED BUILDER GELS

RECOMMENDED FOR FILE FREE TECHNIQUE TOO!

BrillBird's builder gel line has a brand new, special textured builder gel. It is thick yet smooth when applied, easy to spread, flexible yet hard at the same time. It can be used as a base or as a cover layer in 2 steps to create nails, and it's also a great choice as a color on its own. It has a medium heat curing. Due to its consistency, it can be used with both natural and synthetic brushes. We recommend it for the file free technique! In contact with the heat of the nail, it softens, so it requires a faster work pace. If the carrier material sits on the surface, just stir it up and you can use it perfectly again. To remove its strong sticky layer we recommend to use the Super Finish Cleaner.

Advantages:

- easy to bend (bending time: 30 seconds)
- can be used for any length
- can be used perfectly for the file free technique
- high adhesion

Curing time:

- 2-3 min in UV lamp
- 1 min in LED lamp
- 1 min in Combined/UVLED lamp

ACID FREE PRIMER

HEMA FREE

FROM NOVEMBER

Strong adhesive preparation liquid. We recommend using Spary Prep or Nail prep before (which are also HEMA free products) to guarantee proper adhesion. You can also use it for gel or acrylic nails and gel polish. The product does not contain HEMA and di-HEMA components

Advantages:

- strong adhesive effect
- acid-free

NEW!

BASE GEL

HEMA FREE

FROM NOVEMBER

A medium-dense, water-clear base and strengthener characterized by strong adhesion. A minimal C-curve can be made with it. Use under the builder gel or gel polish color for strong adhesion! Not suitable for nail extension. The product does not contain HEMA and di-HEMA components.

Curing time:

2-3 min in UV lamp

1 min in LED lamp

1 min in Combined/UVLED lamp

RUBBER GEL

BASE&COLOR

Our latest development of colored strengthening base gels comes with 12 new shades! Apply the base and color in one step and save time on your work!

It will be your favourite because:

- very flexible, yet firm texture
- easy to spread, but it does not flow
- smoothes on the surface by itself, but can be corrected with a brush if necessary
- it has a strong adhesion
- thanks to its texture, good handling and color range, you can save considerable time
- after preparing the nail, you can use it in two steps: as it is colored on its own, you can use it as a base and as a color, and you only have to cover the nails with a top.
- it can also be used as a reinforced base with any color

Curing time:

3 min in UV lamp

1,5 min in LED lamp

1,5 min in Combined/UVLED lamp

BRILLBIRD

HYPNOTIC GEL&LAC

NEW!

HYPNOTIC GEL&LAC

3 STEP GEL POLISH

The popular Hypnotic Gel polish family comes with breathtaking series! Its color-matching packaging can be the decoration of your salon. You can decide which one suits you just by looking at the bottle- even if you can't choose from the mesmerizing Hypnotic Gel polish colors.

Why choose Hypnotic Gel polishes?

- dense consistency- does not flow into the side nail folds
- perfect, streak-free application
- soakable, so it is even gentler on nails
- highly pigmented colors
- no wrinkles
- specially developed Hypnotic Bond and Top

Curing time:

2-3 min in UV lamp

1-2 min in LED lamp

1 min in Combined/UVLED lamp

* Due to the extra pigmentation, we recommend to use #218 in one layer!

DIAMOND HOLO CHROME POWDER

CHROME POWDER CONTAINING REFLECTIVE GLITTER

Our breathtaking holographic effect, diamond sparkle chrome powders will be love at first sight for you and your guests!

How to use:

On full surface: Cover the nails with Extra Top, cure for 30 seconds (in Brill Pro lamp), then rub the Diamond Holo Chrome powder on the nails with your finger (use gloves). Apply 2 layer of Extra Top, curing the first layer for 10 seconds and the second layer for 1 minute.

For decoration: draw the pattern with a non-fixing material on a matt nail surface (with Contour Paint Gel or Brush&Go Gel), cure for 60 seconds, then immediately rub the surface with the chrome powder of your choice. Apply 2 layers of Extra Top, cure the first layer for 10 seconds and the second for 1 minute.

NEW!

NAIL STICKERS

Our self-adhesive and water stickers are waiting for you with 9 new designs.

The trendy face pattern and the gold and marble pattern will instantly enhance any plain nail. Of course, we're not short of autumn and winter vibes either, so we've also created 2 autumn and 4 winter designs.

SILICONE SMILE LINE FORM

For Reverse tips, we have brought you a great new innovation, a negative form developed for the smile line, with which you can easily create filed smile line effect on Reverse tip nails. You can also easily create French nails with a built-in glitter effect. The silicone forms are reusable, just peel them off the film, insert them into the Reverse tip with one movement and after work replace them back onto the foil. It can be used for all shapes, the more oval one is recommended for narrower shapes and longer nails, the other one is for square shapes and shorter nails.

SHORT
LONG

12 size, 24 pcs/package

REVERSE TIP FUTURE GELHEZ - SLIM

Reverse Tip specially developed for slim shapes. It can be used to create perfectly straight slim shapes, but with the right amount of extra material it can also be used to create beautifully curved nails and to correct claw nails. It's made of a flexible, bendable material and can be reused several times.

Try it for slim almond, slim cube, oval and pipe shapes.
